## *Plaques & Awards*

605 N. Parkway Wayland, IA. 52654 (319) 256-9663

[www.waglerwood.com](http://www.waglerwood.com)

## ***Welcome to Wagler Manufacturing***

You will notice that we do not put model numbers on our plaques and bases, as there are an unlimited amount of sizes and shapes that our customers need.

This allows our customers to choose any length, width, and thickness and use this formula,

$$length \times width \times thickness = sq\ inches.$$

Innovation has been our team of professionals goal from day one at Wagler Manufacturing in product design, quality, and value. We are engrossed in manufacturing new designs, and ways to economically produce these designs.

No matter what your product needs are, we are dedicated to earning your business. We have set up a production needs Quote Chart, which allows us to quote parts for companies that use any type of volume. This remains our goal today. lower cost per part with increased quality!

Since product capabilities are so unlimited, due to the technology and machinery in our facility, this catalog shows generalized abilities. This does not show every model or design possible. So in short, use your imagination, or if you have products you already use, send a sample or design idea to the address on back and we will generate a sample and quote of your exact needs with no obligations!

## **Wagler Woodcrafts, Manufacturing**

**605 N. Parkway**

**Wayland, IA 52654**

**(319)256-9663**

**Owner: Curt Wagler**

This business is a trade that has been passed down generation to generation. Curt's grandfather started woodworking as a hobby, his dad, Delmer expanded on that by building home interior items for retail. Curt then expanded the business into manufacturing as well as retail. We now offer premiere quality wood, plastic, & metal products.

The business started out in a small shop behind Curt's father, Delmer's house & last July was the Grand Opening for Curt's new building in the Wayland Industrial Park.

In the last year since opening the new facility Curt has met the challenges of a growing business with:

- Bigger machinery to produce a higher volume of parts & products
- Added more room in the facility for a large computer itemized packing room
- Added more room in the facility for a top of the line custom assembly room
- Added a new design your own kitchen cabinet center with a one of a kind hands on build your own cabinet door for the convenience of our customers
- More clientele from not only individuals but from factories & big businesses as well
- An increase in wholesale sales in the U.S. & overseas. The increase is largely due to local factories & retailers learning about our competitive rates, diverse offerings, & small & large quantities.
- Due to our in house website, web sales are on the rise daily
- One of Curt's biggest challenges is building a lot of his own specialized automated & conventional types of machinery to keep the facility running efficiently for a business that continues to grow on a daily basis

# Quality Components

## *Kiln Dried Woods*

We use only properly dried woods of 7% & less moisture content! This is an important factor that many people are unaware. If the wood is not dried to 7% or under you actually have a low quality product. The reason for this is that wood shrinks when it dries. Imagine if you build something with wet wood, and it dries over time in your home environment. This is how splits, cracks, & warps happen. I'm sure you can see why it would be a low quality product!

This is why all of Our wood is dried to 7% or less because this is the point of moisture your home environment will maintain in woods!

The splitting, cracking, & warping is done before we build. The bad is cut out, and you are left with a premier quality product you will be proud to resale or put into your lifestyle.

## *Premier Finish*

This is the closest resemblance we can give as to the quality of the finish on our premier products!

The grain of the wood is the only difference between your catalog paper and our finish! Some woods naturally have less of a grain feel than others. Below is a listing of woods that you can feel the most grain & the least. Some of the woods with the most grain feeling are species of Oak, Ash, & Elm --- This is due to the open nature of the grain. Some of the woods with the least grain feeling are species of Alder, Walnut, Cherry, & Maple ---- This is due to the tighter nature of the grain.

We apply our finish with the finest finishing materials & spray equipment in the industry! Our finish is a close guarded secret of 2 generations of experience in fine woodworking!

IT HAS BEEN TRIED AND TESTED. IT'S PREMIER.

Our finish is free from dust, dirt, & foreign contaminants, & our wood is sanded to the right level to insure a premier finish! This applies to all of our products except any economy products!!!!

## *Hanging Methods*

The first, the best, & the only in the Industry! We engineered & built the machine that completes this process. This design completely hugs the wall. Keyholes are normally just a slot that is next to impossible to make tight. We have created a tapered process that is far ahead of our competitors!

These slots are found on all of the plaques & wall hangings we sell, except for the shelving that require drilled holes. All shelving is equipped with hanging holes that are 16" on center to catch the studs in most homes. The hanging holes come with caps to cover the screw heads.

## *Let's Talk Plaque and Base Shapes*

Bitmaps, paper traces, and clipart images are all possible to be made into a plaque or base shape as well as circles, ovals, triangles, and polygons, which includes everything except squares and rectangles.

Add \$2.50 per plaque or base

This bitmap image was used to CNC this Iowa plaque.

## *Let's Talk Plaque and Base Machining*

Bitmaps, paper traces, and clipart images are all possible to be machined into a 3D plaque or base shape. Using the different lines, we can create different 3D projections using powerful CAD software and CNC Router machining.

Setup -- Add \$7.00 if less than 10 plaques

Minimum -- \$8.00

Walnut -- \$0.33 per sq inch

Cherry -- \$0.34 per sq inch

Maple -- \$0.32 per sq inch

Oak -- \$0.32 per sq inch

Alder -- \$0.33 per sq inch

*You may view our full line of in-house clipart designs and images.*

## Let's Talk Laser Engraving.

### 1. Size? Milled? Lasered?

### What we need for Milling or Lasering?

#### 2. Location?

Top Left	Top Center	Top Right
Left Middle	Center	Right Middle
Bottom Left	Bottom Center	Bottom Right

#### 3. Clipart # ?

#### 4. Text & Font?

Text & Font Style Desired  
To Be Lasered

1. Milled pocket or Lasered area Size      X
2. Placement Location (choose from chart above)
3. Clipart Item # or Shape bitmap or paper trace
4. Text & Font Desired
5. Contact Info

**5. Submit above info here  
by e-mail**

## Laser Engraving

Setup (for under 10 plaques)  
+ \$7.00 per each different image

Laser engraveable plate (no lasering)  
\$0.23 per sq. inch, minimum of \$5.00 per each  
Laser plates are all the same price.  
(A 7x9 plaque would normally use a 6x8 engraved plate.)

Laser on wood plaque or on plate if ordered  
\$0.12 per sq. inch, minimum of \$4.20 per each

## Milled Inlays

Milled Inlay Pocket (square corners)  
\$0.28 per sq. inch

Milled Inlay Pocket (round corners)  
\$0.25 per sq. inch

Acrylic Glass Panel for Photo Inlay \$0.17 per sq. inch  
.125 Thick wood Panel for Inlay \$0.17 per sq. inch

*Inlays are Pieces cut to fit a milled recess that are used for Photos with clear acrylic glass panels, Knot Holes to mount racoons, ducks, squirrels, & etc., tiles for lasering, & 2 tone wood colors that fit nice in the recess & give that custom mount look not many have.*

*Inlays - State Shapes - Circles - Ovals - Specialties - Etc.*

EXCELLENCE

*Cabernet cherry shield plaque with round over & milled inlay pocket shown*

*Natural maple circle w/ round over router*

*Natural maple Iowa plaque with round over router*

*veneered economy*

*Notice the darkened edge*

***Veneered economy plaques & bases have an oak veneer on both the top & bottom surface. These are finished to a medium color and the edges are blackened for an attractive yet affordable product line. This line of products laser deep brown to black for very visible engraving.***

# EXCELLENCE

Dark cherry with 45 bevel

Dark cherry with key holes shown

Cabernet cherry with 45 degree bevel shown

**ABOVE SAMPLE REFLECTS COLOR OF ENGRAVING FOR EACH PLATE**  
*Custom laser engraving is optional for companies or individuals, with approved artwork*

**When ordering engraved plate please type text & be specific with your images.**  
*Plastic engraving plates are all the same price, please refer to price list for pricing.*

**All of the plaques & bases are suitable for installing metal, acrylic, or other plates. The plaques are all laserable (please remember the lighter colored plaques are more visible).**

*These samples reflect the profile shapes available. Profile shapes and depths may not be exact due to finish sanding!*

# CARVINGS

Phone 1-319-850-0545

Fax 1-270-747-1798

www.waglermfg.com

Scarecrow dark cherry 8"x11"

Frog dark maple 9"x14"

**Neat isn't it! These computer perfect carvings are perfect to show off your humorous personality. Hang them on your door or on your wall, they're sure to make your company talk. These are just a few of the models available, so once again if you have a design perfect for you in mind, let us know I'm sure it can become a reality.**

**Bitmaps, and paper traces like this are suitable images. Simple shapes would just have an outline of the shape. This image is good for a profile or 3D carving!**

The difference between a 3D plaque & 3D carving, is plaques are flat surfaced for lasering, or engraving plates. Carvings have as much dimension as possible throughout.

**These 3D carvings are priced per square inch. Any size configuration is available.**

Ordering is simple specify color, size, & attach image like above of your needs. These are priced with image setup included.

**Please refer to price list for example of calculating prices!**

Bear dark oak 8"x11"

Natural maple apple shown 8"x9"

Natural maple elephant shown 8"x11"

Butterfly dark cherry 8"x11"

**Our products come standard with a hand rubbed finish that glows of elegance, high gloss is available upon request!**

For our legendary wood types and colors, please see page 15.

CNC CARVINGS

# 3D NOVELTY PLAQUES

**NEW**

glass memorabilia case***

***Trophy cup model with  
bow rack***

***We have bow & gun racks, glass display cases & more!***

TAXIDERM

## ***Shipping and Delivery Terms***

All items are priced FOB Factory.  
Shipping and/or delivery are charged per individual order.

If the item is small enough to ship UPS, Fed Ex, or USPS, the shipment charges are by amount of sale for up to 5 item purchases.

These prices are not eligible on items totaling over 50 pounds!

We ship by UPS, FED EX, or USPS for small shipments, at our disgression. We also, will charge recievers account if requested ( which eliminates shipping charges from us on invoices ). You would pay the carrier directly. If this is your preference, please put your shipper # in the shipping price box & mention the carrier.

***Sorry, No COD's.***

<b><i>Purchase Price</i></b>	<b><i>Shipping Charge For Shipments in the US only</i></b>
\$0.01 - \$9.99	\$5.00
\$10.00 - \$49.99	\$9.00
\$50.00 - \$99.99	\$15.00
\$100.00 - \$199.99	\$20.00
\$200.00 and over	\$25.00

For large shipments, we use insured freight haulers. Most shipments go by PANAMA TRANSFER. We get great rates on large shipments out of our dock but we can't guarantee rates on large shipments as they are dependant on weight. The charges are added to the invoice or charged COD. Your choice!

If you request a quote for your production needs, we can possibly set a solid freight rate for your company's products!

### ***Delivery***

There is \$48 minimum fee for delivery or \$1.10 per mile.

We will deliver or ship by large truck, whichever is more economical for the customer.

To keep our shipping and delivery costs down, some minor assembly may be required on bulky items, such as tables.

*Please continue to visit our dealers for your product needs, their shelves are full of quality products!*

*Dealer Info.*

*Visit [www.waglerwood.com](http://www.waglerwood.com) for any product questions!
